Change," explores the
intersection of food &
politics in CA over
the last 30 years
7pm - Little Lake Health
Center**

The Willits Bypass

**A Transportation Solution for
the Future or a Monument to
the Past?**

Join us as we explore the pros & cons of a two-lane Highway 101 bypass versus a four-lane Highway 101 bypass in light of preservation of agricultural land, peak oil, & climate change.

We will hear a presentation explaining why a two-lane bypass is adequate to serve Willits' needs. Then, we will have an open forum discussion inviting community members to voice their opinions on this important issue.

January 8
6:30PM

Willits Community Center
111 East Commercial Street, Willits
